

Rupert Griffin

age: 18

residence: Columbia, SC

education: High School Diploma

occupation: College Student

marital status: Single

Listen. I don't got time to forget that something needs to be done. Also people interfering is a major NO

I'm a student at UofSC with limited time, broke and really have time to do anything and relax on weekends. Buisness is NOT it. help...

SOCIAL NETWORK

Needs

- -Needs to be easy to use
- -Work efficiently and accurately
- -Give me confidence that I can rely on this app
- -Let me know how much I have left on the washing machine/Dryer
- -Let me know when the wash is done/dryer

Values

- -Simple button to let me start the timer
- -Simple button to let me turn off the time completely (NO PAUSING)
- -Have an alarm running until the laundry is taken out from either machine.
- -Have the person actually use the app to time them on their laundry and take it out with little to no delay on waiting.

Criteria For Success:

He needs to be able to what he needs successfully. Always doing something so having what he needs to go his way would be a major benefit for him.

Wants

- -Have my laundry stay inside the machine while im gone.
- -let me know if the machine stopped for whatever reason
- -let me know if someone took my items out
- -have a nice alarm sound that will motivate me to go get them

Fears

- -Laundry Getting Stolen
- -Cost Increase
- -Getting Behind (Classes, Chores, Etc)

- -have a penalty for taking too long to remove laundry
- -Machine doesn't turn on until you scan the qr for the app to run

John Stuart

age: 36

residence: Westchester, NY

- Failure
- Syntax errors
- Poorly designed mobile apps

Ricky Bobby

age: Late 20's

residence: Washington, DC

education: Bachelor Degree of Fine Art (BFA)

occupation: Designer

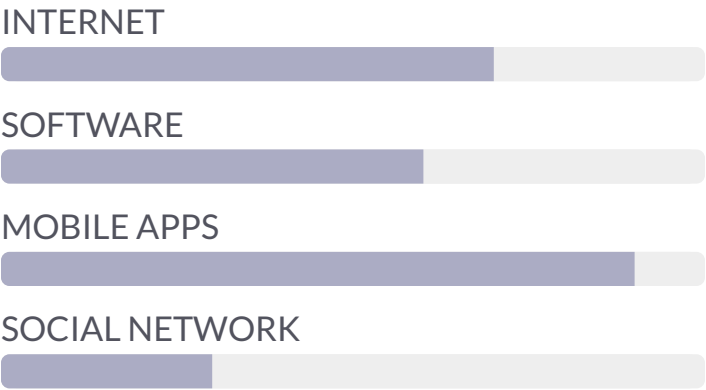

marital status: Single | No children

I love this idea, and I can't wait to test it with our students!

Ricky likes to focus heavily on one aspect of a project, and appreciates his vendors handling the other responsibilities. He prefers to use existing best practices before inventing new paradigms.

Comfort With Technology

Criteria For Success:

Students are able to accurately see openings in the laundry room from their phone without any error.

Needs

- Excellent User Experience
- Functionality
- Accurate data tracking
- Empty laundry machines!

Wants

- Easy to Grasp UI
- User feedback and manual reporting
- Accurate tracking

Values

- Accurately track laundry machine usage
- Display empty laundry machines to users
- Manual reporting for errors

Fears

- Disappointing Users
- Producing a bad product
- Inaccurate data
- Displaying incorrect data to users
- Inaccurately tracking laundry machines

Paolo Ghastly

age: 18

residence: Residence Hall (UofSC)

education: High School Diploma

occupation: Full Time Student

marital status: Single | No Children

"I'm tired of these washing machines being full! I don't have time to do laundry in these conditions!"

* Classes During the Week
